PROJECT

Transformation of 1970's dwelling

DESIGN SUMMARY

The existing house was of its time and now needed a complete overhaul to bring it up to modern living standards.

Situated on a large and attractive plot of land in an area of executive homes, the refurbishment will provide a stunning house that compliments its surroundings.

The site is within the greenbelt which limits the size of any additions to the building.

Maximising the permissible volume and rationalising the existing layout, including changing the stair location, resulted in a spacious, contemporary and flexible family home.

Taking on board the client's style preferences the house has been designed to incorporate Cape Cod / New England vernacular including the addition of verandahs.
