PROJECT

Primary School Hall Extension & Alterations

DESIGN SUMMARY

An imaginative response by lapd to the school's brief provided not only much needed additional Hall space but also rationalised existing spaces (internal and external) to make better use of them.

The scheme was competitively tendered and came within budget' allowing the school to carry out additional works.

Lapd were also appointed as contract administrator overseeing the construction and dealt with the school's changes in a fair and professional manner accommodating them into the main contract.

The client felt they received a superior service compared to using county council suppliers stating

"This was a refreshing response compared to having carried the same exercise using a much larger organisation...We were very happy with their service and would certainly use them again for school building project."
